TWENTY-THIRD ANNUAL REPORT OF THE EXECUTIVE
BOARD OF THE MONTANA STATE INDUSTRIAL SCHOOL

JUNE 30, 1931

To State Board of Education and State Board of Examiners

GENERAL REPORT

I am submitting herewith report of the State Industrial School for the year ending June 30, 1931.

POPULATION

The average daily population for the year was 159, three less than the previous year. But sixty new boys were received during the year as against ninety-three the previous year. The average length of stay of boys paroled was 23 months and the average age of new boys received was 15 years.

DISCIPLINE

The discipline has been good and there has not been any serious offenses all during the year. There were but nine escapes during the year.

HEALTH

No serious cases of illness have occurred among the boys and their health in general is very good.

SCHOOL & SHOPS

A detailed report of the heads of each department is attached hereto and made part of our report. Our departments are supervised by competent department heads and have been very satisfactorily conducted this year as heretofore.

FARM & GARDEN

Due to the cold spring and dry weather crop prospects are not good but we anticipate that will be able to raise sufficient for our needs.

IMPROVEMENTS

The recent legislature has provided us funds for the next two years for the employment of a parole officer. A man has been selected for this position and will begin his duties July first.

Provision for two new cottages for

boys was made by the Legislature in the allocation of the bond funds voted last year, plans have been prepared and we hope it will be possible to build this fall.

Statistical tables showing condition of finances, movement of population, etc., are attached hereto.

Respectfully submitted,

A. C. Dorr

W. E. Holt

F. R. Savage

Executive Board

SCHOOL OF LETTERS

The school year of 1930-1931 was completed on May 29, with an excellent standing in all grades. Three teachers are employed in this branch of the institution work. They are Mrs Edythe Johnson, who teaches the Company C boys; Mr. Lester Jones, who teaches all the boys up to the seventh grade, they being known as the Low Grades; and the writer, who teaches all other seventh and eighth grade boys, they being known as the High Grades.

Any boys, regardless of age, that have not graduated from the eighth grade, are required to attend school while here. The day is divided into a morning and afternoon session, each division having sufficient time for a recess period, during which the boys may relax from their studies and enjoy healthful supervised play.

The Company C boys have a school room of their own so they may be segregated from all older boys. Their total enrollment at the close of school was thirty-six pupils, they being equally divided as to morning and afternoon session. The third, fourth and fifth grades attending the morning session and of the eighteen enrolled, sixteen earned promotion, the remaining two being conditioned. The sixth, seventh

MONTANA STATE INDUSTRIAL SCHOOL.

and eighth grades composed the afternoon session. Six boys were enrolled in the sixth grade, all earning promotion, seven boys were enrolled in the seventh, not only earning promotion, but all passing the State Examinations in geography and physiology, a 100 per cent record; of the six boys attending the eighth grade, five received diplomas, which stands as an excellent record.

The Low Grades were divided into the third and fifth grades attending the afternoon session and the sixth grade attending the morning session. An enrollment of twelve pupils began the afternoon session, four came during the year, which increased the attendance to sixteen. There were four third grade students, two of these earning promotion. Twelve boys attended the fifth grade, eleven earned promotion and one was conditioned. The morning session began with an enrollment of fourteen pupils, three boys were received from seventh grade, six new pupils were received during the year, three were paroled, which leaves a final enrollment of twenty pupils, their average age being fifteen years and ten months. Of these, nine earned promotion, three were conditioned and eight failed. This is a very good record for the year's work.

The High Grades were divided as follows: the seventh grade attended the morning session and the eighth in afternoon. Twenty-one pupils were enrolled in the seventh at the beginning of the year, three were demoted to the sixth grade, three received from the eighth grade, eight paroled, school closing with an attendance of twenty-one. Twenty-four took the State Examination in geography and physiology. Eighteen passed geography, six of them at mid year. Nineteen passed physiology, eight at mid-year. Twelve pupils earned promotion to the eighth grade, ten were conditioned and five failed. The eighth grade commenced

the year with an enrollment of twenty-eight, two were paroled, three were demoted to the seventh grade and six new pupils were received during the year. Thirty pupils took the eighth grade State Examinations, twenty-five received diplomas, thirteen graduating at mid-year.

Respectfully submitted,
C. E Coburn
High Grade Teacher

MEDICAL REPORT
BY DRs. ANDRUS and GARBERTSON

Miles City, Montana
June 30, 1931

MR. A. C. DORR, President,
State Industrial School

Dear Mr. Dorr:

I herewith submit my annual report as school physician for the Industrial School for the period July 1st, 1930 to June 30th, 1931.

During the period we have performed thirty Tonsillectomies and twenty Circumcisions at the School hospital, and approximately fifty calls were made at our Clinic by students during the year.

In addition to these, six cases were removed to the Holy Rosary Hospital, as follows: Appendicitis 2; Ethmoid Sinusitis 1; Hernia 1; Laceration left wrist 1; Ruptured Spleen 1. These cases were of such a nature that I felt warranted in sending them to the Holy Rosary Hospital for care instead of having them hospitalized at the School hospital.

One death is recorded for the period, being that of a parole boy who was injured while at work away from the School and died at the Holy Rosary Hospital.

Upon my several inspection visits to the School and its surroundings I found the sanitary conditions to be very good and the general health of the boys was most satisfactory.

Respectfully submitted,
W. W. ANDRUS, M. D.

TWENTY-THIRD ANNUAL REPORT

MANUAL TRAINING

About eighteen boys have received training in the manual training department in the last year. At present I have twelve boys, some just starting, others have been here long enough that they get along quite well with most of the work we have to do.

We take care of all the repair work, painting, cement, plastering and the general carpenter work of the institution besides making all of the furniture.

We have most of the modern machinery in our shop and the boys have a complete set of carpenter tools and are taught how to keep them in shape as well as use them.

The following is a list of some of the major work in the last year.

Painted the horse barn and farmer shed

Painted the Industrial building

Painted the boys cottage.

Built four gravel wagon boxes for teamsters

Made set of double doors for the garage.

Painted and varnished the interior of Administration building.

Repaired and remodeled the chicken house.

Repaired dairy barn.

Painted and repaired screens on all of the buildings of the institution.

Made a number of neckyoke, single trees and double trees for the farmers.

Made one lamp stand.

Made two quilting frames.

Changed library by partition of room on third floor of Company C.

Made table and cases for library

Made twenty sweeps and one hundred and fifty stakes for Miles City Country Club.

Made large cabinet for the print shop.

Made hot bed for the gardens.

Made four hundred foot flume for Miles place.

Plastered and refinished room in boys building.

Respectfully submitted,

Thos. E Mason
Carpenter Instructor

SHOE SHOP

At various times, nine boys have been detailed to this department in the last year. In this department, like all others, the boys are given the choice of work they prefer and by so doing, the boys are interested and take a liking to their work.

New boys are put to work at sewing and gradually work up to where they can build a shoe complete in a years time.

The leather, nails and miscellaneous supplies are bought once each year. Our shoes are built entirely of leather, three kinds of shoes are made; a heavy work shoe, a dress shoe and a house slipper. We also do all of the harness repairing as well as repair basketballs, footballs, etc.

In addition to making all of the shoes for the Institution, in the past year we have repaired for the Orphans' Home at Twin Bridges, seven hundred and twenty pair of shoes. This gives us plenty of work for the boys, as well as a source of revenue, having received about \$ 550.00 from that Institution.

From July 1, 1930 to April 30, 1931, Mr A. T. Williams was instructor. At that time, the writer returned as instructor after an absence of three years.

Respectfully submitted,
Mr. John J. Jesperson
Shoe Shop Instructor

TAILOR SHOP

In the past year 27 boys have received instruction in this department. Of this number at least 15 received enough training to be employed in shops on the outside.

The work has gone on the same as in previous years with no changes. A new tailor is gradually worked up from a patcher, through the making of work clothes to uniforms and civilian suits. At one time this year, the crew consisted of nineteen boys but the usual number is twelve, which is just enough to do the work easily.

The repairing, patching, darning and pressing are our biggest items, but in our spare time we have been able to make the following articles:

Parole suits	77
Parole vests	16
Uniform coats	16
Uniform caps	48
Uniform trousers	18
Jean trousers	285
Khaki trousers	224
White trousers	22
White jackets	2
Meat jackets	1
Denim jumpers	2
Overalls	144
Khaki caps	64
Blue caps	28
Cooks caps	75
Under drawers	60
Under shirts	38
Kitchen shirts	140
Waiters shirts	6
Hickory shirts	208

Night gowns	157
Aprons	167
Table cloths	37
Sheets	231
Pillow slips	186
Curtains	30
Dish towels	213
Bath towels	284
Knee pads	39pr
Laundry bags	9
Pot holders	67
Dresser scarfs	4
T binders	12
Irrigating dams	8
Bread cloths	13
Neckbands	24
Fly swatters bound	196
Garters	113
Window shades	24
Macine covers	10
Rugs bound	7
Basketball pants	12
Strainers	6
Half sleeves	17

YEARS PRESSING

Suits	130
Uniforms	165
Extra trousers	177
Extra coats	39
Dresses	50

Respectfully submitted,

Mrs. Alice Jones
Tailor Instructor

TWENTY-THIRD ANNUAL REPORT

PRINT SHOP

The principal work of this department is the publication of a four page paper, "THE BOYS' MESSENGER," in which we try to portray the life of the boys at the school, together with news of the different departments. One boy from each department is detailed to write the news of his department, which in turn is edited by the print shop boys once each month. In the paper we publish the honor roll, showing the months of perfect conduct for each boy and also show those who are in honor, having earned 5,000 merits.

The paper is mailed to the parents of all the boys here, and boys on parole, State and County officials as well as exchanged with several of the Institutions throughout the United States. At the present time we publish about 1400 copies per month.

All type is set by hand as we do not have enough work, nor are the boys here long enough to learn a great deal about a linotype machine.

The Secretary acts as supervisor; the boys being detailed there on their honor. Only boys that have finished the eighth grade are detailed to this department, and they must show a willingness for the work, initiative and receive constant training in good English.

Only three boys are detailed to the shop at one time, although six boys have received some instruction during the past year.

In addition to the publication of "THE BOYS MESSENGER," we do all of our own printing, a list of which follows: -

Letterheads	2700
Envelopes	6250

Mailing wrappers	15000
Laundry lists	5700
Order blanks	3500
Report cards	2000
Score cards	1000
Parole papers	300
Annual reports	525
Book lists	250
Voucher blanks	1000
Christmas songs	250
Christmas cards	650
Merit sheets	250
Boys' Messenger	16800
General information books	300
Celebration programs	300
Detail blanks	500

Respectfully submitted,
F. R. Greengo
Secretary

AUTO SHOP

For five months last winter, we had Mr. F. E. Partridge with us for our auto shop instructor. During this period he had four boys in the shop with him, giving them instructions in auto mechanics. At that time he gave the tractor, cars and trucks a good overhauling and by so doing, we are able to get along very well during the summer months without an instructor.

This summer we have a boy detailed to this department, who takes care of all the washing, greasing and servicing of cars.

Our shop is well equipped and we are able to do all kinds of repair work, body painting etc.

Respectfully submitted
F. R. Greengo
Secretary
